

Ashish Shejwal

Software Engineer

Dedicated Software Engineer with a strong passion for crafting applications using the MERN stack, React Native, and TypeScript. Skilled in creating pixel-perfect UI designs while adhering to the latest best practices. Committed to excellence and a continuous drive for personal and organizational growth.

Education

Bsc(CS) @ University of Mumbai

JVM MEHTA COLLEGE (JUNE 2020- 2023)

HSC @ Maharashtra State Board

PARAG JUNIOR COLLEGE (JUNE 2016- 2018)

Work Experience

Junior Developer @ Exits

JULY 2022 - JUN 2023 (1 YEAR)

Successfully managed multiple projects simultaneously, including:

- Developed a secure file sharing app from scratch, implementing JWT authentication with refresh token rotation and validations. Designed a user-friendly file manager UI for efficient file management.
- Created a seamless web and mobile booking platform, enhancing hotel booking experiences for users.
- Contributed to the development of Atlassian-like productivity tools, including Gantt charts and Kanban boards, utilizing React and React Native.
- Designed and implemented billing functionality for admin panels, including hotel booking and dating apps, enabling the sending of billing receipts as PDF files.
- Addressed design inconsistencies through reusable components, significantly accelerating development.
- Ensured alignment of project goals with client expectations via effective communication in stakeholder meetings and requirement gathering sessions.
- Streamlined testing and deployment processes for enhanced reliability, utilizing WinSCP and Apache server.
